医学部長のメッセージ

Dean's Message

佐賀大学医学部は、開講40周年を経て医療環境の変化に対応した医療人育成のための新しい取り組みを始めました。

佐賀大学医学部の理念は、「良き医療人の養成」という基本理念に基づき、教育・研究・診療の三つの使命を一体として推進することです。

医学科では、医療技術の習得は勿論の事、プロフェッショナリズムと人格的にも優れた医療人の育成を行います。また佐賀県は東アジア各国との学術交流において地理的な利点が有り、今後アジアを中心とする国際的な医療連携を推進するとともに、医療のグローバル化に対応できる幅広い視野を持った良き医療人を育成したいと考えています。

看護学科では幅広い教養とコミュニケーション能力を身につけ、看護学及び医学の専門的知識、技術を習得し、問題解決能力と看護実践能力を身につけることや地域及び国際社会に貢献することのできる看護師の育成を目指します。

基礎研究は医療の進歩に不可欠です。再生医療、ゲノム医療を含むがん研究など先進的な基礎医学に加えて、アレルギーや生活習慣病などの基礎・臨床横断的研究にも力を注いでいます。学生には基礎研究の重要性や楽しさも分かってもらい、大学院進学を希望する学生が増えるような工夫もして行きたいと考えます。

大学院教育においては、令和元年度から医学、看護学、工学、 農学を融合した修士課程の先進健康科学研究科を開講しまし た。健康医療分野において各分野を統合した幅広い視点と柔 軟な発想を有する研究者や高度な専門職を養成することを目 的としています。

医学部の教育と研究は附属病院での臨床活動と深く連携しています。

臨床では新専門医制度が5年目を迎え、医師の働き方改革も始まっています。基礎医学と臨床医学が相互に協力しながら研究を行い医療の発展に寄与できる環境を大学全体で整えて行きたいと考えています。佐賀大学医学部の益々の発展のため、医学部の皆さんと一致団結して努力してゆきましょう。

After 40 years since its foundation, Saga University School of Medicine has launched a new initiative to train medical professionals in response to changes in the medical environment.

Our vision at Saga University School of Medicine is to promote education, research and medical care as an integral mission based on the idea of "training good medical professionals."

In the Department of Medicine, medical students are trained to acquire both quality medical skills and a high level of professionalism.

Saga Prefecture has a geographic advantage of being within a short range of the Asian mainland. This provides convenient access and will foster improved medical cooperation centered in Asia, where students can expect to be trained as exemplars within the medical field.

Aims of the Department of Nursing are to train students to develop a high level of communication and problem-solving skills built upon a solid foundation of specialized knowledge. Their experience and abilities will be a significant contribution both regionally and internationally.

Fundamental research is essential for progress in the medical field.

In addition to advanced medical science such as regenerative medicine and cancer research including genomic medicine, we are also focusing on fundamental and multidisciplinary research in allergies and lifestyle diseases.

It is crucial for students to understand and experience the importance and excitement of research. I would like to improve the program so that more students become interested and inspired to apply and join our graduate school.

Regarding graduate school education, the Graduate School of Advanced Health Sciences was established in 2019 as a master's program that incorporates medicine, nursing, engineering and agriculture.

The aim is to train researchers and professionals to develop a wide range of perspectives and innovative ideas that integrate various fields in health and medical care.

Research and education within our faculty retain a strong connection with clinical training at the University Hospital.

In clinical practice, the New Japanese Medical Specialty Board is in its fifth year and Doctor's Work Style Reform has also begun.

I would also like to improve the environment where fundamental research and clinical medicine work together, above and beyond their boundaries, so that the research will greatly contribute to medical advancement.

We shall make a concerted effort to further the development of Saga University School of Medicine.
